New Panel Website

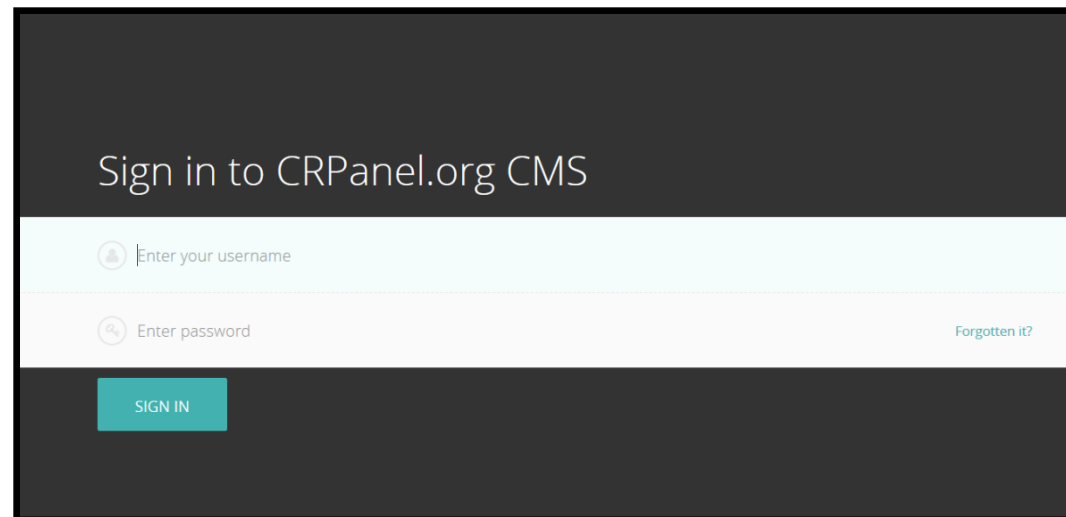

The screenshot shows the homepage of the Community Resilience Panel website. At the top left is the logo: "COMMUNITY RESILIENCE PANEL FOR BUILDINGS AND INFRASTRUCTURE SYSTEMS". Below the logo is a navigation menu with links for Home, About the Panel, Meetings, Resilience Knowledge Base, News & Events, Membership, and Contact Us, along with a search icon. The main content area features a large, colorful 3D isometric illustration of a city street grid with various buildings, a bus, a car, and infrastructure elements like a water tower and power lines. Below the illustration is a text box: "Our standing committees identify and develop products to help make community's buildings, infrastructure systems, and social systems more resilient. To learn more, go to [Meetings](#) or [Resilience Knowledge Base](#)." At the bottom, there is a "Sponsored by" section with logos for NIST (National Institute of Standards and Technology, U.S. Department of Commerce), U.S. Department of Housing and Urban Development, U.S. Department of Justice, FEMA (Federal Emergency Management Agency), NOAA (National Oceanic and Atmospheric Administration, U.S. Department of Commerce), and U.S. Department of State, U.S. Department of Homeland Security. A "Member Login" link is in the bottom right corner.

The screenshot shows a profile page for Jay Raskin on the Community Resilience Panel website. It features the same logo and navigation menu as the homepage. The main heading is "Jay Raskin – Panel and Coordinating Committee Chair". Below this is a paragraph of text: "Jay has been a leader in making communities resilient. Jay's efforts began over 20 years ago with preparing coastal communities for a large Cascadia earthquake and tsunami on the west coast. He championed emergency preparedness and pre-disaster mitigation efforts while serving on public committees and as city councilor and mayor of Cannon Beach, Oregon. He was selected as chair of Restore Oregon's roundtable workgroup on Resilient Masonry Buildings, which addressed the threat of earthquakes to masonry buildings and the economic importance these buildings play in historic downtowns. He was instrumental in creating the Oregon Resilience Plan, a 50-year plan to prepare the State of Oregon for a Cascadia earthquake, which is currently being implemented. Appointed by the Governor to the Oregon Seismic Safety Policy Advisory Commission, he is currently vice-chair. On the basis of his work, Jay was recently elected to the American Institute of Architects College of Fellows." To the right of the text is a portrait of Jay Raskin, a man with glasses wearing a dark suit. Below the text is a "Contact: jay@jayraskinarchitect.com" link. A "Member Login" link is in the bottom right corner.

- **Software** to be used by *members only*
- Used to **share** documents, multi-media, collaborate on products being developed
- **Username**s and **passwords** coming soon
- **Tutorials** will be given in upcoming virtual standing committee meetings

Collaboration Software Landing Page

The screenshot shows the CRPanel.org CMS interface. On the left is a dark sidebar with a search bar and navigation links for Explorer, Images, and Documents. The main content area has a teal header with a user profile and the text 'Welcome to the CRPanel.org CMS Example User'. Below the header are three summary cards: '1 Page', '0 Images', and '1 Document'. The 'Documents' link in the sidebar and the '1 Document' card are circled in red. A red arrow points from the 'Documents' link to the '1 Document' card, with the text 'Add & review documents' written in blue below the arrow.

- **Collections** used for standing committees
 - Can expand number of collections based on needs of each standing committee or working group
- **Share** existing resources with other Panel members
- Makes it easy to **edit, upload** and **search** documents/media

The screenshot displays the CRPanel.org CMS interface. At the top, there is a teal header with the text "DOCUMENTS" and a search bar labeled "Search documents". A button labeled "+ ADD A DOCUMENT" is located in the top right corner. On the left side, there is a dark sidebar with a search bar and navigation options: "Explorer", "Images", and "Documents". The main content area shows a document titled "CRPCC Meeting M" with a "Collection:" dropdown menu. The dropdown menu is open, showing a list of collections: "All collections", "Buildings & Facilities Standing Committee", "Communication Standing Committee", "Data, Metrics, & Tools Standing Committee", "Energy Standing Committee", "Social & Economic Standing Committee", "Transportation Standing Committee", "Water & Wastewater Standing Committee", "Policy Standing Committee", and "Community Resilience Panel Coordinating Committee (CRPCC)". The "Community Resilience Panel Coordinating Committee (CRPCC)" option is highlighted in blue. To the right of the document, there is a "UPLOADED" dropdown menu showing "31 minutes ago".

- Will use **same platform** as collaboration software
- Expanded to a **public-facing database** to serve as a resource for communities
- **Search Criteria / Classification System**
 - Keyword / Metadata
- **Categories**
 - Building & Facilities
 - Communication
 - Data, Metrics & Tools
 - Energy
 - Social & Economic
 - Transportation
 - Water & Wastewater

- **Search Topics**

- Best Practices
- Case Studies
- Guidance Documents
- Tools
- Potential Solutions
- Climate Science & Adaptation
- Disaster Risk Management
- Economics
- Federal Program Funding
- Federal Policies
- Insurance
- Policy Mainstreaming

- **Risks**

- Geological
- Weather related
- Stealth hazards
- Other

- **Publication Types**

- Community Resilience Panel Publications
- NIST Guides
- Technical Guidance
- Research Publications/White Papers/Journal Articles
- State & Local Plans

Nick Fish
Portland City Commissioner
